Current Position

Legal Counsel, Arbitrator and Expert Determiner

Professional Experience

Acts as advocate in commercial litigation, in international arbitration and in expert determinations; has appeared, in various roles, in disciplinary proceedings in the insurance and financial services an industry. His main fields of practice include oil, gas, and electricity litigation, insurance, banking, shipping, international sale of goods and financial services. His work has also included carbon taxation, renewables and carbon trading. He regularly appears as advocate in arbitrations worldwide.

Arbitration Experience

Numerous appointments under international institutional rules (ICC, LCIA, DIAC, KLRCA etc) as well as UNCITRAL Rules; also under local rules such as the Arbitration Court of the Hungarian Chamber of Commerce; also ad hoc arbitrations including in Geneva and Copenhagen. Has also acted as expert determiner under clauses in power sale agreements requiring expert determination. He sits as arbitrator in many jurisdictions worldwide.

Publications

He has published papers on oil, gas and electricity related topics and on the interaction between expert determination and arbitration at international conferences and also on shipping issues at The London Shipping Law Centre. His most recent works include: the "Adjustment Phase" in "Gas Price Arbitrations" Globe, 2014; "Commencing an Arbitration and Constituting the Tribunal" in "Singapore International Arbitration: Law & Practice" LexisNexis, 2014; *Unique Issues in Oil and Gas Disputes, International Oil, Gas & Energy Dispute Management OGEL 2* (2007); and *Property in Commingled Gas - the Legal Structures Compared National and International Issues in Natural Gas Development OGEL 1* (2006); "Gas Pricing

Disputes", the EISourcebook (2012).
